ITALIAN CUSTOM DESIGN

Sentitevi liberi di scegliere, di cambiare.
Questa è libertà di espressione.

/ Feel free to choose, to change.
This is freedom of expression.

L'esigenza di creare e di mettersi in gioco sono le carte vincenti di Momenti®, un nuovo modo di pensare, di vedere e di concepire l'ambiente per renderlo unico e personale. Nel 2005, Alexander e Matteo Bagnai iniziano un percorso fra imprenditorialità e inventiva, e il risultato, ancora oggi, è un'alchimia suggestiva che caratterizza oggetti unici. Momenti® riveste qualsiasi superficie, che sia un pavimento, una parete o un oggetto d'arredo, attraverso soluzioni emozionanti e di grande fascino. Il processo lavorativo permette di personalizzare ogni tipo di rivestimento partendo da un'idea, un'intuizione, un semplice disegno fornito dal cliente o da un'immagine presente sui nostri cataloghi. La nostra non è una classica gamma di rivestimenti, non è un campionario passivo di colori alla moda. Preferiamo pensare alle nostre creazioni come a strumenti di libera interpretazione, da utilizzare sia nelle dosi consigliate, che esagerandone la perfezione. Purché vi renda felici, ogni cosa è design: colore, materia, citazione, licenza poetica, rigore, visione. Il Momenti® Lab, nostro ufficio tecnico e creativo, interagisce direttamente con designer, architetti e professionisti del settore, per trovare soluzioni idonee a ogni tipo di ambiente. Forte di numerose collaborazioni fra designers, artisti, grafici, illustratori e artigiani, Momenti® lavora con lo sguardo rivolto al

futuro in costante movimento. Le nostre collezioni nascono da continue prove di materiali, ricerche di finitura, di resistenza, di rispetto per l'ambiente e di continuo entusiasmo. L'obiettivo è divulgare la qualità del Made in Italy, un'eccellenza desiderata in tutto il mondo da chi ricerca prodotti altamente personalizzabili e perfettamente coordinabili. L'italianità dei nostri prodotti è sinonimo di grande attenzione nei confronti di ogni processo produttivo, dalla scelta dei materiali e loro qualità, alla cura dei dettagli. **Tutto viene eseguito rigorosamente a mano.** Ogni prodotto, infatti, attraversa tutte le fasi di realizzazione - dall'ideazione alla produzione sul nostro territorio - a tenace salvaguardia di un comparto manifatturiero caratterizzato da creatività e abilità. Mantenere questi standard di qualità, significa per noi offrire ai nostri clienti collezioni uniche, scelte esclusive e soluzioni innovative e versatili. È per questo che amiamo definirci i "Sarti del Design Italiano". Nascono così stampe artistiche, elementi d'arredo, rivestimenti dalla forte impronta artistica e vestiti di immagini emozionanti. Il risultato finale è arte applicata al design quotidiano.

/ Involvement and creativity are Momenti's winning cards®, a new way of thinking, seeing and conceiving the environment, to make it unique and personal. In 2005, Alexander and Matteo Bagnai began a journey embracing entrepreneurship and inventiveness, dedicated to the house and its elements. The passion for creativity was immediately expressed and the result, even today, is a suggestive alchemy that characterizes unique objects. Momenti® covers any surface, whether a floor, a wall or a piece of furniture, through exciting and fascinating solutions. The process allows you to customize each type of coating starting from an idea, an intuition, a simple design provided by the customer or an image present in our catalogs. Not a classic range of coverings, not a passive sample of fashionable colors; we prefer to call our creations tools of free interpretation, both usable in the recommended doses, exaggerating their perfection. As long as it is pleasing, all is design; color, fabric, quote, poetic license, rigor, vision. Momenti® Lab, our technical and creative office, interacts directly with designers, architects and professionals in the sector, to find suitable solutions for every type of environment. Availing of excellent collaborations between designers, artists, graphic designers, illustrators and artisans, Momenti® operates with an eye towards the

ever-changing future. Our collections are born from continuous tests of materials, research of finishing, resistance, continuous enthusiasm and environment friendly. The end goal is to spread the Made in Italy quality, a desired excellence all over the world by those who seek highly customizable and perfectly coordinated products. The Italian nature of our products is always synonymous with great care of every production process, from choice of materials, their quality to attention to detail. **Everything is strictly hand-crafted;** in fact, each product goes through all the stages of production - from conception to production on our territory - to a tenacious safeguard of a manufacturing sector characterized by creativity and skill. For us, maintaining these quality standards means to offer our customers unique collections, exclusive choices, innovative and versatile solutions. **This is why we love to call ourselves the "Tailors of Italian Design".** This is how artistic prints, furnishing elements, coverings with a strong artistic imprint and dresses of moving images are born. The end result is art applied to everyday design.

Per trovare un posto nella professione, si è trasferito a Parigi, dove ha lavorato per importanti agenzie fotografiche e media specializzati in notizie sportive internazionali. Nel 2002 si è dedicato all'Africa e alla fauna selvatica dei grandi mammiferi terrestri. Nel 2007, dopo 5 anni di riprese nella savana, ha iniziato a mostrare le sue istantanee di animali selvatici catturati sul posto, istintivamente. Nel 2009 ha pubblicato il suo primo lavoro basato sul suo lavoro africano: «Terre des Lions» poi nel 2011 «D'ivoire & d'ébène». Nel 2013, è diventato ambasciatore di buona volontà per il Programma delle Nazioni Unite per l'ambiente e ha partecipato alla campagna anti-bracconaggio Wild & Precious. Mateo Bories

Nato in Francia nel 1985, Mateo si interroga sulla percezione del mondo che ci circonda e sull'impatto della tradizione sulle nostre società occidentali. Dopo aver conseguito un master in Arte a Tolosa, si reca a Montreal nel 2008 per lavorare come grafico. Quindi inizia un lungo viaggio in giro per il Sud America dove ancora produce e dipinge murales con il filo dei suoi incontri. Tornato a Montreal decide di dedicarsi interamente all'arte. La sua pratica si è sempre evoluta tra strada e studio, largamente influenzata dal movimento della Street Art con una totale libertà di materiali. Il suo approccio umanistico si propone di riconnettersi con ispirazioni fondamentali, un ponte verso le nostre origini profonde e un romanticismo cancellato nella nostra società contemporanea. Possiamo vedere il suo lavoro in Francia, Argentina, Canada, Stati Uniti, Spagna, Messico, Colombia...

After earning a Masters in Art in Toulouse, he went to Montreal in 2008 to work as a graphic designer. His practice has always evolved between street and study, largely influenced by the Street Art movement with total freedom of materials. Tommaso "iomso" Cavallini

Le opere di IOMSO vogliono indicare una realtà artigianale e artistica italiana tra ritrattistica, pop e street art, collegata anche con il mondo del tattoo, usando icone, grafismi, personaggi popolari insieme a disegni inediti. Nei suoi lavori usa tecnica a tempera ad olio, collages, plexiglas, legno, metalli, con una continua ricerca dei dettagli. Attraverso i suoi lavori il viso e il corpo dei personaggi riescono a esercitare potere di fascinazione, diventano essi stessi oggetti di design. Si tratta, quindi, di immagini che vengono sottratte alla morte e restano vive eternamente. Responsabile dello studio ed elaborazione di progetti tra grafica visiva aziendale ed editoria, allestimenti in collaborazione con lo studio architettonico per eventi e fiere, progettazione grafica web. Dal 2003 ha un laboratorio di pittura a Milano e a Cusago dove sviluppa i pezzi artistici, serigrafa, incide.

In his works he uses oil tempera technique, collages, Plexiglas, wood, metals, with a continuous search for details. Through his works the face and body of the characters manage to exert the power of fascination, they themselves become objects of design. Enrico De Luigi

Ritrattista e fotografo di scena, Enrico De Luigi, in arte Chico, è nato a Rimini nel 1966. Ha iniziato la sua carriera a Milano alla fine degli anni '80 e ha collaborato con le più prestigiose riviste nazionali e internazionali come GQ, Vanity Fair, Rolling Stone, Riders, Sportweek. Ha vinto premi (come quello per la miglior fotografia di scena attribuito a uno scatto sul set di Caos calmo, un intenso bianco e nero con Nanni Moretti e Valeria Golino), fotografato in Polaroid 50×60 attori e registi ai Festival di Venezia e Berlino, collabora da anni con la Fandango (ha da poco terminato L'ultimo terrestre, esordio cinematografico del fumettista Gipi che sarà presentato al prossimo Festival di Venezia). Ha lavorato come operatore super 8 a "Super 8 stories" di Emir Kusturica, il documentario con le gesta della rock band del regista. L'interesse e la curiosità per l'espressione umana hanno portato Enrico a esplorare costantemente altri mondi con occhio antropologico: espressione naturalistica di grande impatto che rivelava un significato più profondo e una rivelazione naturale del soggetto stesso.

He began his career in Milan in the late 1980s and has collaborated with the most prestigious national and international magazines such as GQ, Vanity Fair, Rolling Stone, Riders, Sportweek. He has won awards (such as the one for best stage photography attributed to a shot on the set of Chaos calmo, an intense black and white with Nanni Moretti and Valeria Golino), photographed in Polaroid 50 × 60 actors and directors at the Venice and Berlin Festivals , has been collaborating for years with Fandango (he has just finished L'ultimo terrestre, the film debut of the cartoonist Gipi which will be presented at the next Venice Film Festival). He worked as super 8 operator on Emir Kusturica's "Super 8 stories", the documentary featuring the exploits of the director's rock band. The interest and curiosity for human expression led Enrico to constantly explore other worlds with an anthropological eye: a naturalistic expression of great impact that reveals a deeper meaning and a natural revelation of the subject itself.

Michela Gioachin

Michela Gioachin vive e lavora a Vicenza. Nel 2003 si laurea con lode all'Accademia di Belle Arti di Venezia, studiando Pittura con i maestri Riccardo Guarneri, Ennio Finzi, Luca Bendini e Maurizio Martelli e anatomia con il prof. Mauro Zocchetta con il quale successivamente ha collaborato. Durante gli studi accademici arriva la folgorazione che dà inizio alla sua attuale ricerca pittorica: "Tutto è nato da un errore. Durante gli studi in Accademia fotografavo gli altri studenti, li ritraevo cercando nei loro volti le espressioni più disparate. Cercavo il dettaglio e la precisione per una pittura successiva che fosse vicino all'iperrealismo. E poi è accaduto che uno scatto risultasse sbagliato...". Questo particolare "errore", chiamato glitch (termine usato per indicare un breve difetto del sistema in vari campi di applicazione dell'elettronica), smette di essere scarto e diventa uno sbaglio romantico, una forma di poesia attraverso il quale i soggetti sono "elettricamente divisi", "sdoppiati" per raccontare di sé il costante divenire.

Mauro Zocchetta with whom he subsequently collaborated. During his academic studies, he was struck by the shock that gave rise to his current pictorial research: "Everything was born from a mistake. During my studies at the Academy I photographed the other students, I portrayed them looking for the most disparate expressions in their faces. I was looking for detail and precision for a subsequent painting that was close to hyperrealism. And then it happened that a shot was wrong ... ". This particular "error", called glitch (term used to indicate a brief defect of the system in various fields of application of electronics), stops being waste and becomes a romantic mistake, a form of poetry through which the subjects are "electrically divided", "split" to tell about the constant becoming.

Marco Grassi

Marco Grassi (Grama) è un pittore di origine italiana, nato a Milano nel 1966 e ora vive e lavora a Lugano, Svizzera. Nei suoi lavori predomina, su tutti gli altri soggetti, la bellezza eterea e sfuggente, delicata e perfetta di giovani donne. Fin dagli inizi della sua carriera, Marco Grassi ha sviluppato uno stile molto personale che elogia l'identità del soggetto femminile nel momento specifico in cui viene dipinto. Con i suoi intensi ritratti femminili, Marco cerca di affascinare lo spettatore, creando un dialogo silenzioso tra il soggetto e il pubblico. I pezzi di Marco Grassi sono sorprendenti, uniscono decorazione pura e colore iperrealistico. Nei suoi lavori più recenti, Marco ha abbandonato l'elemento che un tempo era il suo segno distintivo dello stile e della tecnica: le pennellate decisive che delineavano le sue forme anatomiche e contrastavano con colori decisi, mescolati con un spatola e sgocciolato per sfaldarli e renderli più sottili. Meno certezze mostrano i suoi soggetti recenti. Oggi lo sfondo su cui sono rappresentati è più deciso e riflette le espressioni facciali dei soggetti e l'intenso silenzio, creando una complicità con l'osservatore. Le opere di Marco Grassi sono state esposte in numerose mostre personali e collettive e fiere internazionali come Art Basel, SCOPE Basel e Moscow Art Fair. È stato selezionato per essere presente all'inaugurazione del Padiglione Italia alla Biennale di Venezia nel 2011.

/ Marco Grassi (Grama) is a painter of Italian origin, born in 1966 in Milan and now living & working in Lugano, Switzerland. In his works, the ethereal and elusive, delicate and perfect beauty of young women predominates on all other subjects. Since the beginnings of his career, Marco Grassi developed a very personal style which praises the identity of the female subject in the specific moment in which they are painted. With his intense female portraits, Marco searches to captivate the viewer, by creating a silent dialogue between the subject and the audience. Marco Grassi's pieces are striking, they combine pure decoration and hyper-realistic colour. In his most recent works, Marco has abandoned the element that was once his trademark style and technique: the decisive brushstrokes which outlined his anatomic forms and contrasted with bold colours, blended with a spatula, and drippings to break them down and make them more subtle. His recent subjects display less certainty. Today, the background against which they are represented is more decisive and reflects the subjects' facial expressions and intense silence, creating a complicity with the observer. Marco Grassi's works have been exhibited in many solo and group exhibitions, and international fairs such as Art Basel, SCOPE Basel and the Moscow Art Fair. He was selected to be at the opening of the Italian Pavilion at the Venice Biennale in 2011.

Honet

Honet aveva 15 anni quando scoprì e si innamorò dei graffiti e ben presto divenne un punto di riferimento nella scena parigina prima di divenire riconosciuto a livello mondiale per il suo approccio eccentrico. È dopo qualche tempo che passa dalla bomboletta al pennello e passa dai muri della città alle gallerie. Il suo lavoro è profondamente ispirato dalla sua vita in costante movimento insieme alla sua romantica esplorazione del mondo - dall'Europa all'Asia. Il suo tratto inconfondibile così come le sue composizioni grafiche attira marchi di lusso tanto quanto la street fashion e le istituzioni globali.

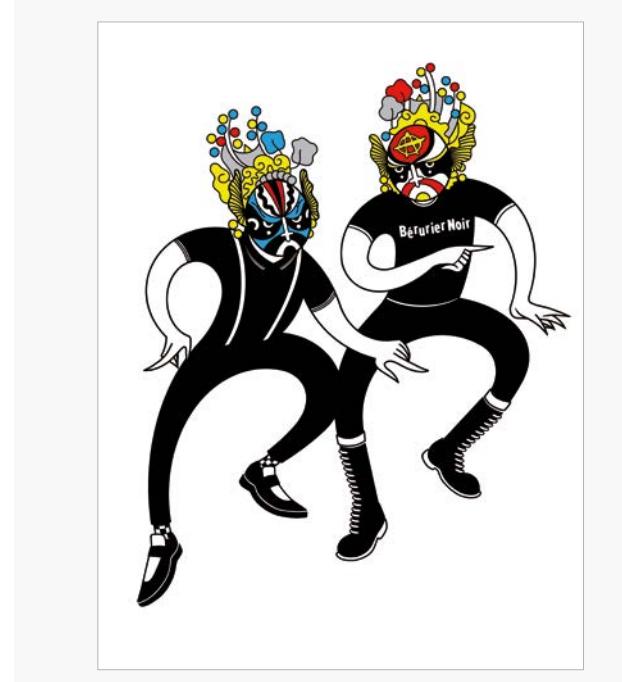

/ Honet was 15 when he discovered and fell in love with graffiti and quickly became a reference in the Parisian scene before gaining worldwide recognition for his leftfield approach. It is later on that he add a brush on top of his can of spray-paint and moved from city walls to galleries. His work is deeply inspired by his life in constant movement together with his romantic exploration of the world - from Europe to Asia. His unmistakable sharp lines and graphic compositions appeal just as much to luxury brands, street fashion and global institutions.

Michelino Iorizzo

"Il mio fare arte è una necessità. L'immaginazione mi nutre tutti i giorni, ed io non posso fare altro che renderla reale..."

I volti che vedo lungo il mio cammino vengono reinterpretati dalla mia pittura e a volte riaffiorano volti di persone conosciute molto tempo prima, ma quasi sempre sono volti che non esistono.

La mia tecnica affonda le radici nel passato. Precisamente è Tempera grassa e olio su tavola. Amo anche dipingere su carta e poi incollarla su tavola per continuare a lavorarci fino a che non diventa "Opera". In sintesi la mia cifra stilistica verte sul catturare quell'attimo che, paragonato alla durata della nostra vita, lo si può quantificare in un unico battito di ciglia ed io cerco di renderlo eterno..."

/ "My making art is a necessity. Imagination feeds me every day, and I can't help but make it real..."

The faces that I see along my path are reinterpreted by my painting and sometimes the faces of people I met a long time ago reappear, but they are almost always faces that do not exist. My technique has its roots in the past. Precisely it is Tempera grassa and oil on wood. I also love to paint on paper and then glue it to a table to continue working on it until it becomes "Opera". In summary, the stylistic figure focuses on my capturing that moment which, compared to the duration of our life, can be quantified in a single blink of an eye and I try to become eternal..."

Giulio Iurissevich

Giulio Iurissevich ha intrapreso la carriera di fotografo e grafico nel 1998. Specializzato in fashion, lifestyle e beauty, è anche artista urbano. Giulio si concentra sulla figura umana e soprattutto sulle lievi sfumature di espressione in ritratti di volti femminili. Spinto dall'istinto e ispirato dalla forma umana, il lavoro di Giulio esplora il volume, la geometria e il colore, riducendo gli effetti non necessari e concentrando invece su linee e forme pulite. Il suo lavoro è astratto, con una forte influenza sulla cultura di strada urbana. Unico e versatile, il fascino di Giulio si estende ben oltre la sua nativa Italia, e in particolare nel Regno Unito, negli Stati Uniti, in Canada e in Germania, dove i suoi clienti includono Karim Rashid, Motorola, Virgin, Oxford University Press, Music for Relief, New York City Marathon, Start Mobile, Image Zoo, Shelter, Frezza Inc-Casamania, Thedesignconspiracy UK, Qub Studios e le riviste Elle, Marie Claire, The Source, Vogue, Runner's World, Vision Magazine (Cina) e Rivista Ottagono (Italia). Il suo successo si riflette anche nella sua inclusione in diversi importanti libri di illustrazione di moda, tra cui The Big Book of Fashion di Martin Dawber e pubblicato da Bt Batsford (Regno Unito), Text and Image vol 2 pubblicato da AVA-applied visual arts (Svizzera), Encyclopedia of Modern and Contemporary Art (Alba Editrice) (Italy), Communication Arts the Annual (UK), Luerzer's Archive Best 200 Illustrators Worldwide (AU), Talentos de la ilustracion de moda (Spain).

/ Giulio Iurissevich began his career as a photographer and graphic designer in 1998. Specialized in fashion, lifestyle and beauty, he is also an urban artist. Giulio focuses on the human figure and above all on the slight nuances of expression in portraits of female faces. Driven by instinct and inspired by the human form, Giulio's work explores volume, geometry and color, reducing unnecessary effects and focusing instead on clean lines and shapes. His work is abstract, with a strong influence on urban street culture. Unique and versatile, Giulio's appeal extends far beyond his native Italy, and particularly to the UK, the United States, Canada and Germany, where his clients include Karim Rashid, Motorola, Virgin, Oxford University Press, Music for Relief, New York City Marathon, Start Mobile, Image Zoo, Shelter, Frezza Inc-Casamania, Thedesignconspiracy UK, Qub Studios and the magazines Elle, Marie Claire, The Source, Vogue, Runner's World, Vision Magazine (China) and Rivista Ottagono (Italy). Ashima Kumar

Ashima Kumar è una graphic designer qualificata e artista visiva. Ha completato nel 1993 il suo Bachelor of Fine Arts presso il College of Art, Delhi, India. Da allora, ha fondato il suo studio di design. I suoi lavori creativi sono un'esplorazione del mondo che la circonda. Ispirata dall'arte di Kalamkari e Zentangle, ha sviluppato il suo stile di arte contemporanea utilizzando penna, inchiostro e tecnologia per realizzare opere d'arte digitali. Il suo lavoro è un bell'esempio di cosa accade quando si abbinano forme pulite e forti con un messaggio potente, mostrando come l'arte visiva può ispirare ed essere un elemento vitale nella crescita delle imprese e anche nello stimolare le percezioni del pubblico in modi desiderabili. Il mio portafoglio di clienti di design include Pepsico, Coca cola, Plan International India per citarne alcuni. La mia arte non è stata solo esposta in mostre d'arte, ma ha anche toccato una corda con le organizzazioni che cercano di costruire/estendere la propria identità di marca.

"L'arte può penetrare nella parte più profonda di noi, dove non esistono parole." (Ashima)

Samuele Manz-ù Manzoni

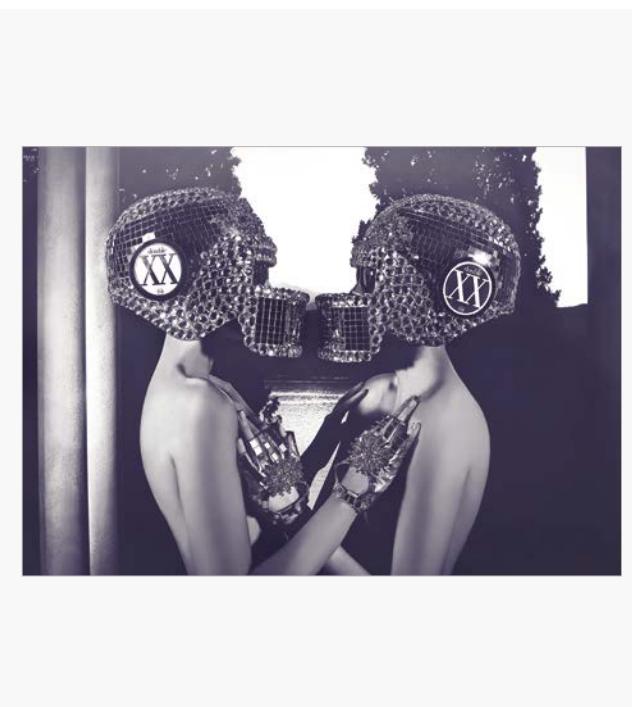

Samuele Manzoni, in arte Manz-ù, fotografo professionista classe 1983, è specializzato in fotografia di moda. Ha realizzato campagne pubblicitarie e cataloghi collaborando con importanti agenzie, aziende ed editori di Milano, Lugano, New York, Miami, Parigi, Londra, Madrid, Dubai, Tokyo.

"Ogni buona fotografia racchiude in sé almeno due storie: la storia che rappresenta e la storia di chi la racconta. La fotografia di Samuele Manzoni di storie ne racconta almeno tre. La prima narra un viaggio elegante nel mondo del fashion. Un viaggio alla ricerca di personalità forti, di abiti raffinati e ricchi nei dettagli. La seconda è quella di un trentenne che con impegno e costanza è riuscito a padroneggiare in pochi anni la tecnica fotografica mantenendo un buon rapporto tra tradizione e sperimentazione. Infine, la terza storia è quella di uno stile unico che il fotografo sta costruendo e integrando scatto dopo scatto. Uno stile con influenze rococò, dove la formalità della fotografia minimale è messa al bando per dare spazio drappeggi e texture. Charisma, sì. Penso che la fotografia di Samuele Manzoni sia in toto un'esplosione di charisma." (Elisa Contessotto- MeVsPhotography)

/ Samuele Manzoni, aka Manz-ù, professional photographer born in 1983, specializes in fashion photography. He has created advertising campaigns and catalogs collaborating with important agencies, companies and publishers in Milan, Lugano, New York, Miami, Paris, London, Madrid, Dubai, Tokyo.

"Every good photograph contains at least two stories: the story it represents and the story of the one who tells it. Samuele Manzoni's photography of stories tells at least three. The first tells of an elegant journey into the world of fashion. A journey in search of strong personalities, refined clothes rich in details. The second is that of a thirty-year-old who with commitment and perseverance has managed to master the photographic technique in a few years while maintaining a good relationship between tradition and experimentation. Finally, the third story is that of a unique style that the photographer is building and integrating shot after shot. A style with Rococo influences, where the formality of minimal photography is outlawed to give space to drapes and textures. Charisma, yes. I think that Samuele Manzoni's photography is an explosion of charisma in its entirety." (Elisa Contessotto- MeVsPhotography)

Il mio lavoro di collage è un flusso di pratica di coscienza, che mi permette di esplorare le narrazioni che emergono dopo che ogni pezzo è stato completato. La mia appropriazione di ogni immagine mi dà il potere di mostrare il mio punto di vista molto personale con una miriade di sincronicità e codici del linguaggio visivo. Ho creato il termine "The Art Engineer" per ricordare a me stesso il potere che gli artisti hanno di "ingegnerizzare" e mostrare le possibilità di una realtà autodefinita. Creando conversazioni sull'identità e sull'eccesso della cultura pop, il mio lavoro diventa uno specchio che riflette il familiare in prospettive alterate.

/ Collage, to me, is the most democratic art practice one can create. It is political, accessible and spiritual. My collage work is a stream of conscience practice, that allows me to explore narratives that emerge after each piece is completed. My appropriation of each image gives me the power to show my very personal point of view with a myriad of synchronicities and codes visual language. I created the term "The Art Engineer" to remind myself of the power artists have to "engineer" and show the possibilities of a self defined reality. By creating conversation about identity and pop-culture's excess, my work becomes a mirror that reflects the familiar in altered perspectives.

Peeter Must

Nato nel 1967 in Estonia, si è laureato presso l'Accademia d'arte estone. Uno degli scopi principali dell'arte dovrebbe essere offrire piacere estetico, far dimenticare al pubblico i propri problemi, aiutarlo a vedere il momento successivo in una luce un po' più brillante. Per questo la sua arte è libera da problemi e tendenze: i temi espressivi del colore e le delicate figure femminili mostrano che c'è sempre una luce alla fine del tunnel. Temi cromatici espressivi e delicate figure femminili creano una simbiosi, attraverso la quale desidero dimostrare che c'è sempre una luce alla fine del tunnel. Una donna nella mia arte è come una tabella di marcia, che mi guida e mi mostra la strada in questo mondo appena aperto.

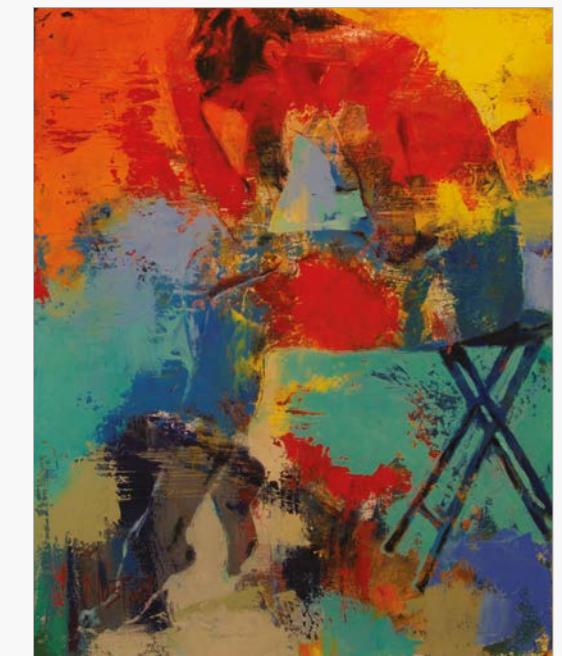

/ Born in 1967 in Estonia, he graduated from the Estonian Academy of Art. One of the main purposes of art should be to offer aesthetic pleasure, to make the public forget their problems, to help them see the next moment in a slightly brighter light. For this reason, his art is free from problems and trends: the expressive themes of color and the delicate female figures show that there is always a light at the end of the tunnel. Expressive chromatic themes and delicate female figures create a symbiosis, through which I wish to demonstrate that there is always a light at the end of the tunnel. A woman in my art is like a roadmap, guiding me and showing me the way in this newly opened world.

Riccardo Raul Papavero

Riccardo Raul Papavero eredita dalla madre, artista affermata, l'interesse per l'arte in tutte le sue forme. Viaggia in Europa, Africa e Sud America con la curiosità vorace di chi vuole scoprire e conoscere l'arte della diversità. Il bisogno di confrontarsi con nuove espressioni artistiche lo conduce alla realizzazione di collage polimaterici: l'inizio dell'avventura avviene a metà tra il gioco e il caso... Nel 2003 la strenua ricerca della locandina di Buffalo 66, film di nicchia di Vincent Gallo, lo porta a girovagare per negozi e sviscerare il film di Gallo per farlo rivivere su legno. Seleziona, spacca e scomponete i singoli frame, rielaborandoli in un collage che fonde pittura e stampa digitale, artigianato e nuove tecnologie. Così il gioco diventa passione irrinunciabile e, con il tempo, laboratorio sperimentale. L'incessante ricerca di materiali e la continua rivoluzione di concept artistici lo portano a creare opere fortemente caratterizzate: la tecnica si rifinisce, i materiali si legano per armonia o contrasto e le opere sembrano costruirsi da sé. Ogni pezzo è unico e irripetibile in questo gioco alchemico della trasformazione.

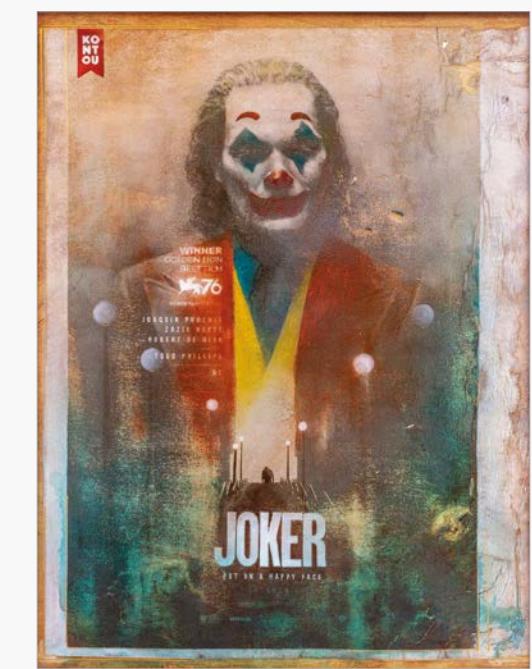

/ Riccardo Raul Papavero inherits from his mother, an established artist, an interest in art in all its forms. Travel to Europe, Africa and South America with the voracious curiosity of those who want to discover and learn about the art of diversity. The need to deal with new artistic expressions leads him to the creation of multi-material collages: the beginning of the adventure takes place halfway between play and chance... In 2003 the strenuous search for the poster of Buffalo 66, Vincent's niche film Gallo takes him to wander around the shops and dissect Gallo's film to revive it on wood. It selects, splits and breaks down the individual frames, reworking them in a collage that blends painting and digital printing, craftsmanship and new technologies. Thus the game becomes an indispensable passion and, over time, an experimental laboratory. The incessant search for materials and the continuous revolution of artistic concepts lead him to create highly characterized works: the technique is refined, the materials are linked by harmony or contrast and the works seem to build themselves. Each piece is unique and unrepeatable in this alchemical game of transformation.

Michele Pau

Michele Pau nasce a Oristano nel 1983, attualmente dedica la sua vita alla pittura. Nel 2014 inizia a frequentare il laboratorio-studio della pittrice italo-argentina Norma Trogu in Oristano. Fin da subito il suo interesse artistico si è manifestato nella pittura figurativa; nel corso del 2019 è cominciato un processo di trasformazione comprendente una narrazione intenzionalmente nascosta e lasciata all'interpretazione dello spettatore. Le opere includono un motivo ormai ricorrente visualizzato attraverso paesaggi espansivi e da figure isolate che mostrano il passaggio da un'interpretazione realistica ad un'altra, alterata e disgregata.

His artistic interest immediately manifested itself in figurative painting; During 2019, a transformation process began including an intentionally hidden narrative left to the spectator's interpretation. The works include a now recurring motif displayed through expansive landscapes and isolated figures that show the transition from one realistic interpretation to another, altered and disrupted.

Ludmilla Radchenko

Ludmilla Radchenko nasce l'11 novembre 1978 a Omsk in Siberia, dove si diploma in Fashion Design nel 1999. Nello stesso anno approda in Italia, dove lavora come modella, show-girl e attrice fino al 2008. Nel 2009, dopo un corso alla New York Film Academy negli USA, Ludmilla decide di dedicarsi totalmente alla sua più grande passione: la pittura. La sua arte urlata si nutre di vita reale, composizioni ricche di messaggi visivi, collage di vita quotidiana con pennellate d'ironia. Da dicembre 2010 è nelle librerie Feltrinelli il suo primo catalogo: "POWER POP" edito da Skira. Su commissione realizza opere per personaggi come il campione di moto GP Jorge Lorenzo, il campione di F1 Sebastian Vettel, il cantante Jamiroquai. La creatività di Ludmilla non si limita alla tela, ma varca ambiti come moda e design, con personalizzazione degli spazi e degli arredi; da qui nascono collaborazioni con diversi brands e una linea di foulards con stampe d'arte su materiali pregiati. Il progetto "FullART" Made in Italy, riscuote successo a livello mondiale. Nel 2018, in occasione dei primi dieci anni di carriera nel mondo dell'arte e del design, Mondadori Electa pubblicherà il primo volume ufficiale dell'artista, "From Siberia with Pop".

/ Ludmilla Radchenko was born in Omsk, Siberia on 11 November 1978, where in 1999 she graduated in Fashion Design. In the same year she moved to Italy to work as a model, show-girl and actress. In 2009 she chose to pursue her greatest passion: painting. Instinctive and vital, her art drove her toward Pop Realism. Since December 2010 her first catalogue "Power Pop" edited by Skira could be found in Feltrinelli libraries with a critic essay by Fortunato D'Amico. Ludmilla created a painting for a champion of moto GP Jorge Lorenzo, for F1 world's champion Sebastian Vettel, for the rock star Jamiroquai. Far from presenting the object again and again in an hyperbolic and obsessive way as seen in the "classic" pop tradition, Radchenko loads it with social content in open accusation to its exploitation. Radchenko doesn't limit her interest to canvas but spreads her touch to fashion and design as well. The "Siberian Soup" FullART by Ludmilla Radchenko was registered as a new brand in 2013. In 2018 Mondadori Electa will publish the artist's first official book, "From Siberia with Pop", on the occasion of Ludmilla's 10th year career anniversary.

Carlo Ravaioli

Nasce nella campagna ravennate. La sua formazione artistica spazia per un lungo periodo alla ricerca della propria dimensione tra molteplici linguaggi e discipline. Negli anni '80 apre uno studio di grafica pubblicitaria.
 [...] Il lavoro di Carlo Ravaioli appare a chi gli si accosti originale e sorprendente, prima di tutto perché costituisce un'inedita sintesi tra due universi opposti, quasi mai conciliabili: quello delle tecnologie d'avanguardia, della computer grafica, dell'immagine elettronica, e quello dei più antichi valori materici, coloristici, disegnativi della pittura. Come un moderno alchimista, Ravaioli riesce a strutturare il suo mondo espressivo secondo questa straordinaria coincidentia oppositorum, in cui l'altissima definizione dell'immagine "immateriale" elaborata dal software sfocia nella forte presa sensuale, nella ricchezza ambigua e inquietante dei suoi dipinti [...]." (Silvia Pegoraro)

[...] Carlo Ravaioli's work appears original and surprising to those who approach it, first of all because it constitutes an unprecedented synthesis between two opposite universes, almost never reconcilable: that of avant-garde technologies, computer graphics, electronic image, and that of the most ancient material, coloristic and drawing values of painting. Like a modern alchemist, Ravaioli manages to structure his expressive world according to this extraordinary coincidentia oppositorum, in which the very high definition of the "immateriale" image elaborated by the software results in the strong sensual hold, in the ambiguous and disturbing richness of his paintings [...]. Reve+

L'artista deve il suo nome al francese "rèver", sognare, ma letto all'italiana. Un modo per dare uno sfondo onirico alle sue creature urbane. Il suo simbolo, un +, vuole invece essere un richiamo alla positività, vero motore del suo lavoro.
 «Il motivo della mia azione è molto semplice, fin troppo. Io amo da sempre disegnare e credo che i miei disegni siano capaci di mettere di buon umore: sono semplici, colorati, immediati. Mi piace sapere che qualcuno uscendo di casa, guidando lungo la tangenziale, aspettando il tram possa sorridere, anche solo per un secondo». È un mondo onirico, popolato da placidi, enormi animali. Animali rubati ad un immaginario fanciullesco che spuntano, sempre più frequentemente, su muri in cemento, casotti, infrastrutture. Reve fa parte di quella nutrita schiera di artisti suburbani che, stanchi di gallerie d'arte, compromessi, quotazioni ha deciso di donare la propria arte, la propria immaginazione alla collettività.

/ The artist owes his name to the French "rèver", to dream, but read in Italian. A way to give a dreamlike backdrop to his urban creatures. His symbol, a +, instead wants to be a call to positivity, the real engine of his work.

"The reason for my action is very simple, far too simple. I have always loved drawing and I believe that my drawings are capable of putting you in a good mood: they are simple, colorful, immediate. I like to know that someone leaving the house, driving along the ring road, waiting for the tram can smile at it, if only for a second».

It is a dream world, populated by placid, huge animals. Animals stolen from a childish imagination that appear more and more frequently on concrete walls, sheds, infrastructures. Reve is part of that large group of suburban artists who, tired of art galleries, compromises, quotations, decided to donate their art, their imagination to the community.

SNYDER

L'artista dietro lo pseudonimo "SNYDER" occupa una posizione unica nel mondo dell'arte. I suoi molti anni di lavoro come architetto e la sua passione per la scrittura di stile sono le principali forze trainanti dietro la concettualizzazione di una nuova estetica. Li traduce in motivi che si distinguono per la loro oscillazione tra maestosa armonia e potere cangiante. I suoi motivi mostrano spesso la fragile bellezza delle specie animali in via di estinzione, che conferiscono alla sua arte un momento auratico. SNYDER spiega l'animale come una controparte piena di sentimento strato dopo strato su diversi supporti come carta, tela o superfici murali con la bomboletta spray. Le sfocature create alle frange di colore dei diversi strati conferiscono alla profondità mancante del nostro spazio dell'immagine digitale un momento di autentica natura selvaggia. Allo stesso tempo, in ciascuna delle sue opere SNYDER imita le aberrazioni cromatiche, le cosiddette aberrazioni cromatiche, che hanno trovato la loro strada nel nostro canone visivo tramite processi di imaging analogico e digitale. Le opere di SNYDER ci incoraggiano a reimparare il comportamento percettivo istintivo. Per essere visti, i mondi animali di SNYDER adattano il loro aspetto alla giungla urbana e prendono di mira con attenzione ogni spettatore di passaggio. Sviluppano un effetto trainante a cui è difficile sfuggire come passante.

/ The artist behind the pseudonym "SNYDER" occupies a unique position in the art world. His many years of work as an architect and his passion for style writing are the main driving forces behind the conceptualization of a new aesthetic. He translates these into motifs that stand out for their oscillation between majestic harmony and iridescent power. His motifs often show the fragile beauty of endangered animal species, which lend his art an auratic moment. SNYDER unfolds the animal as a soulful counterpart layer by layer on different media such as paper, canvas or wall surfaces with the spray can. The blurs created at the color fringes of the different layers give the missing depth of our digital image space a moment of authentic wildness. At the same time, in each of his works SNYDER imitates color aberrations, so-called chromatic aberrations, which have found their way into our visual canon via analog and digital imaging processes. SNYDER's works encourage us to relearn instinctive perceptual behavior. In order to be seen, SNYDER's animal worlds adapt their appearance to the urban jungle and attentively target every passing viewer. They develop a pulling effect that is difficult to escape as a passer-by.

83 anno in cui arrivo, numero di cui la somma ha un suono bellissimo: 11; le onde e le nuvole sono il mio ambiente naturale; metto insieme per sperimentare; non credo nell'ordine ma amo il metodo; imparo tanto e lentamente; dialogo coi più piccoli evitando le abitudini; associo per ricordare; viaggio per trasformarmi; vedo cose quando ancora non ci sono; prendo appunti temporanei ma una check-list sarà per sempre; il sud è casa.

Greenguard

Certificazione Greenguard

Tutti i prodotti Momenti sono stampati con sistema certificato GREENGUARD. La maggior parte dei composti organici volanti (VOC) dannosi per l'uomo presenti negli ambienti interni proviene da materiali da costruzione, arredi per interni, prodotti per la pulizia, la stampa, le ristrutturazioni interne e via dicendo. I risultati degli studi condotti nell'ambito hanno mostrato che il 96% dei VOC trovati in un edificio per uffici, ad esempio dopo la costruzione, deriva da materiali utilizzati per costruire e arredare quest'ultimo. Il Greenguard Environmental Institute (GEI) si occupa proprio di questo, dirige e amministra il programma di certificazione prodotti GREENGUARD. GEI è una organizzazione indipendente senza scopo di lucro, fondata per creare ambienti interni più sani, migliorando così la salute pubblica e la qualità della vita. Un comitato consultivo, formato da esperti nel campo della qualità dell'aria degli interni, della salute pubblica e di architettura ecosostenibile, sottopongono a revisioni il programma di certificazione GREENGUARD e ne garantiscono l'accettazione. I prodotti vengono misurati per le emissioni chimiche e di particelle, in quanto testati per simulare l'effettivo

utilizzo del prodotto. I livelli di emissione misurati vengono convertiti calcolando le concentrazioni di aria che rappresentano ciò che una persona effettivamente respirerà. Queste concentrazioni sono determinate in base all'uso previsto del prodotto, alla quantità di prodotto, al processo di applicazione e alle condizioni dell'edificio interno, inclusi volume dell'edificio e tasso di cambio dell'aria fresca. I prodotti certificati GREENGUARD devono soddisfare severi requisiti sulle emissioni chimiche, ad esempio essere sottoposti a screening per oltre 10.000 composti organici volatili (VOC). I prodotti sono sottoposti sia alla ricertificazione annuale che ai test trimestrali di monitoraggio della qualità per mantenere queste credenziali. La scienza, i solidi requisiti di certificazione e lo stato di terze parti che sostengono il programma di certificazione GREENGUARD differenziano i prodotti certificati sul mercato. Essere certificato da GREENGUARD significa che il prodotto e l'inchiostro con il quale è stato stampato sono stati testati contro le emissioni inquinanti all'interno degli edifici seguendo appunto, severi metodi di laboratorio come sopra citato.

/ Greenguard Certification

All products in the Momenti collection are printed with GREENGUARD certified system. The majority of VOCs found in the indoor environments originate from building materials, indoor furnishings, cleaning supplies, printing, cooking, hobbies, cleaning, and interior renovations. Results from studies conducted showed that 96% of the VOCs found in a large office building following construction resulted from the materials used to construct and furnish the building. The Greenguard Environmental Institute (GEI), an independent and non-profit organization founded to create healthier indoor environments, improving public health and life standards, manages and administers the GREENCARD PRODUCT CERTIFICATION PROGRAM. An advisory committee, consisting of experts in the field of indoor air quality, public health and eco-friendly architecture, submits to revision the GREENGUARD Certification Program and ensures its acceptance. The products are measured for chemical and particle emissions, as they are tested to simulate the actual use of the product.. Measured emission levels are converted by calculation to air concentrations representing what a person will actually breathe. These concen-

trations are determined based on expected use of the product, amount of product, application process and the indoor building conditions, including building volume and fresh air exchange rate. GREENGUARD Certified products must meet stringent chemical emissions requirements, such as being screened for more than 10,000 volatile organic compounds(VOCs). Products undergo both annual re-certification and quarterly quality monitoring tests to maintain these credentials. The science, robust certification requirements, and third-party status that back the GREENGUARD Certification program differentiate certified products in the marketplace. Being certified by GREENGUARD means that the product and the ink with which it was printed were both tested against the emission of pollutants inside the buildings following, strict laboratory methods aforementioned.
